

Increasing mobile workforce efficiency with the ultimate in GPS tracking.

StreetEagle is an advanced, easy to use GPS Tracking solution developed and supported by InSight USA, an industry leader in providing advanced GPS tracking to a variety of industries needing accountability of their mobile workforce and assets

Service and Installation **Limousine** Waste Management **Public Safety** Public Works **Ambulance/EMS** Delivery and Transportation

'Dots on a map' are only the beginning. StreetEagle GPS Tracking provides the real business intelligence you need to easily:

-)) Verify payroll hours and overtime
-)) Verify arrival and departure times
-)) Ensure proof of service
-)) Eliminate side jobs
-)) Eliminate unnecessary vehicle use
-)) Reduce vehicle operating expenses

StreetEagle is not a 'one size fits all' solution, but a range of solutions that gives you just what you need

-)) Real-Time Active or Passive
-)) Web, Professional, or Enterprise versions
-)) Industry specific reporting and features
-)) Real-Time Alerts and Notifications
-)) Maintenance Alerts

Secure and Reliable

StreetEagle's tamper resistant installation and reliable hardware means you'll always have accountability of your mobile workforce. Unlike many GPS tracking systems that can be easily unplugged from the vehicle (a common problem with GPS tracking), StreetEagle's installation is 'out of sight, out of mind'

- Uses proven and secure hardware with over one million units installed worldwide, and over 100,000 hours MTBF (mean time between failures)
- Operates over any GSM/GPRS cellular data network worldwide
- Over 99.9% GPS Tracking server uptime
- Lifetime hardware warranty with tracking service

Developed and Supported by InSight USA

InSight USA is foremost a technology company with over ten years of experience in providing mission critical GPS tracking for Public Safety, EMS and commercial industry. For our customers, this means:

- We are here when something goes wrong, with both on-line and on-call support
- StreetEagle is a full featured, mature, reliable GPS tracking solution
- Free StreetEagle software upgrades with tracking service
- Special requirements, integration, and customization can be readily implemented

Powerful Reporting Capabilities

StreetEagle contains a powerful combination of the most advanced reports available. The software's intelligent reporting provides the most accurate and complete vehicle location and activity history for every vehicle in your fleet.

General Management Reports

- Complete Vehicle Activity Report
- Vehicle Idling Report
- Vehicle Parked/Stopped Report
- Vehicle Speeding Report
- State-by-State Fuel Tax Mileage Report
- Vehicle Maintenance Management Report
- Geographic Analysis Report

Advanced Management Reports

- **Virtual Time Clock Report** Eliminate payroll inaccuracies and unwarranted overtime. Allows you to quickly and easily confirm actual hours worked for your entire mobile workforce
- **Job Time Report** Detailed listing of all time spent at known job sites
- **PTO Sensors/Proof of Service** Accurately verify service has been completed and resolve customer disputes

Real-Time Alerts and Notifications

StreetEagle instantaneously alerts you when a pre-defined violation has occurred. You can choose whether to receive alerts via text message and/or email. Alerts can be set for:

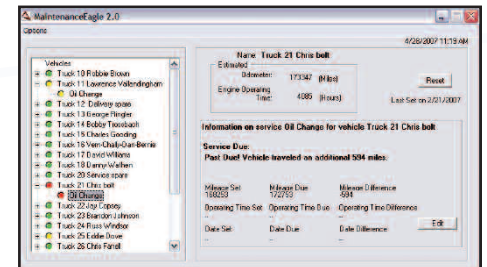

- Entering and/or exiting a geofence
- Excessive speeding
- Vehicle alarm activation
- Excessive idling
- After hours vehicle use
- Monitor when vehicle system is "on".

Vehicle Maintenance Module

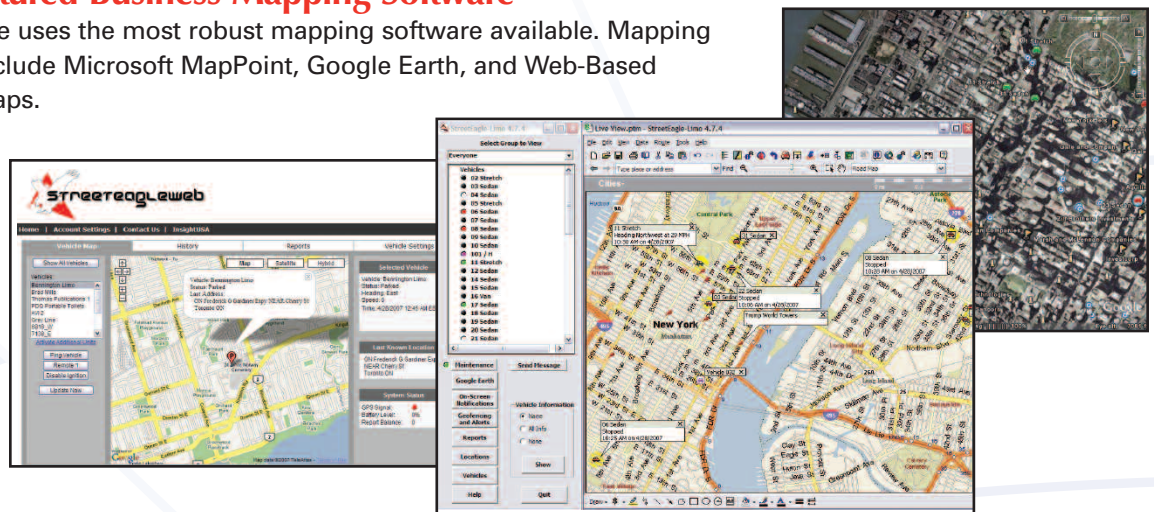

Provides reports and alerts of scheduled vehicle maintenance items

- Unlimited scheduled maintenance profile definitions for oil change, tires, inspections, etc.
- Maintenance can be triggered by elapsed mileage, engine operating time, or calendar time

Full Featured Business Mapping Software

StreetEagle uses the most robust mapping software available. Mapping options include Microsoft MapPoint, Google Earth, and Web-Based Google Maps.

Optional Hardware Integration

InSight USA provides the latest technology to mobile workforces looking to increase productivity.

- **Garmin Vehicle Navigation** Route your drivers to locations directly from the StreetEagle Software. Ensure drivers arrive on time to the correct location.
- **Asset Barcode Scanning** Allows you to track asset delivery, servicing, and pick-up. Verify current location of assets and eliminate loss of individual assets in the field.
- **Temperature Sensing** Real-time temperature monitoring and history. Over temperature alert.

StreetEagle Plans

Our range of plans makes StreetEagle the ideal tracking system for small fleet owners all the way to large fleet managers. There is a seamless upgrade path that will let you add features when you need them. As your business grows, so can the capabilities and features included in the StreetEagle software.
